

## Felt and Leather Stitched Feather Ornaments

by Flamingo Toes Designs - flamingotoes.com

### Supplies:

2" x 4" piece of wool felt  
3" x 5" piece of leather  
Skein of DMC Pearl Metallic Floss - #5282  
Embroidery Needle  
Hot Glue  
12" Piece of Thin Lace

### Directions:

1. Cut out your feather shape from wool felt.
2. Stitch the design onto the feather using back stitches and French Knots.
3. Using hot glue, glue the felt feather to the piece of leather.  
Trim the leather so it extends past the felt about 1/4" all the way around.
4. Cut a tiny slit in the top of the feather with sharp scissors.
5. Thread the lace through your embroidery needle. Feed the needle through the small slit at the top of the feather to create a loop for hanging the ornament. Bring the ends of the lace together and knot them together.

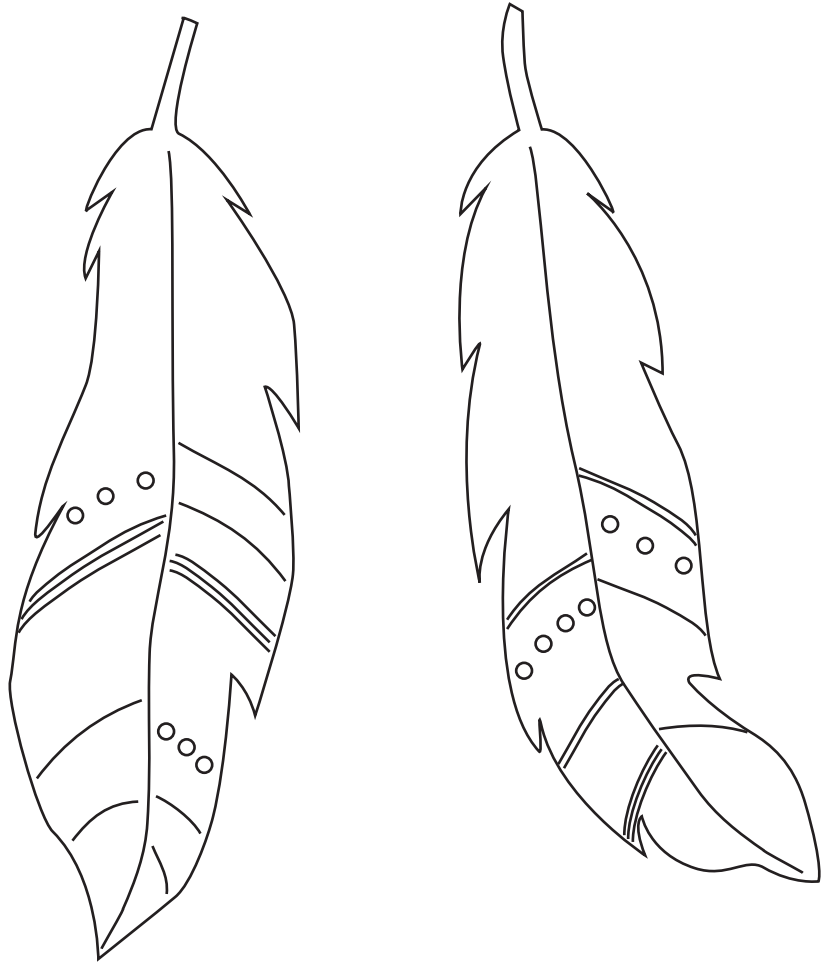

### Skill Level:

Some Experience Necessary

### Approximate Crafting Time:

3-5 hours
