Floral Umbrella Embroidery Hoop Set

Embroidery Pattern

I love how fun this little connected embroidery hoop set is to make! It's a perfect project for Spring with the little floral umbrella and raindrops connected to a little rain boot hoop!

This PDF Pattern includes a color version for easy color identification, a black and white version for easy printing and a reversed image if you'd like to use that for transferring the pattern.

The design is sized for two hoops - one 7" hoop and one 4" hoop. I stitched the sample on white tone on tone Blossom fabric and the hoops is trimmed with ball pom pom trim for an extra bit of color!

Please let me know if you have any questions or need any help! You can email me at bev@flamingotoes.com. I'd love to see any photos of the pattern that you stitch up too! You can follow me on Facebook at <https://facebook.com/flamingotoes> or Instagram at <https://instagram.com/flamingotoes>.

Thanks for stitching!

Bev

Materials:

9" square of background fabric and 6" square of background fabric. I used Riley Blake Tone on Tone White Blossom Embroidery Floss - I used Aurifil 6 Strand Embroidery Floss

7" & 4" embroidery hoop

1 yard of pom pom trim for large hoop and 1/2 yard pom pom trim for small hoop

Glue for finishing

Stitching Information

All stitching is done with 3 strands of 6-strand floss:

1148 Light Jade: Stems of greenery - back stitch, leaves of plants - satin stitch, leaves of plants in boots - lazy daisies

2024 White: White stripes on boot - long and short stitch

2134 Spun Gold: Small gold flower above umbrella - satin stitch

2423 Baby Pink: Main portion of umbrella - long and short stitch, Center of red flower - satin stitch, Bow on boot - satin stitch

2435 Peachy Pink: Medium flowers - satin stitch, Flowers in boot - lazy daisies, Petals on large flower near boot - satin stitch

2440 Peony: Outline of umbrella - chain stitch, Bottom portion of umbrella - satin stitch, Dark pink flower - satin stitch, Rain boot - long and short stitch, Center of flower by rain boot - French Knot fill

5005 Bright Turquoise: Heart raindrops - satin stitch, Raindrop tracks - rows of straight thread on top of fabric

6736 Jedi: Centers of medium and small flowers - French Knots

Finishing Information:

Trim fabric to 1/2" around the edge of the hoop. Glue the fabric to the back side of the hoop.

If you're adding pom pom trim, glue that to the back sides of both hoops so the pom poms extend out from the hoop.

Connecting the Hoops:

Connect the two hoops with 3 strands of floss. Cut a long piece, knot one end and start with the heart drops closest to the umbrella. Bring your needle up at the top of the heart from back to front and bring it back down at the bottom of the umbrella so the thread makes a straight line. Knot the thread on the back side. For the five hearts that are on the small hoop, follow the same steps as the shorter threads, but start with one side and work your way to the other. Keep checking the alignment of the hoops and make sure the lower hoop stays straight and the threads are the same tightness when the hoops are separated. When you're hanging the hoops, they will look better and the threads will stay aligned if you hang both hoops from a nail, rather than just the top hoop.
