# Singing in the Rain Floral Umbrella Embroidery Pattern

This fun floral umbrella will have you singing as you stitch, it is so fun to make up! The little florals are quick and easy to do and the overall effect is just so colorful and sweet! The stitches are perfect for beginners or experts. I show this framed in an embroidery hoop but it would be a gorgeous pillow or mini quilt as well!

This PDF Pattern includes a color version for easy color identification, a black and white version for easy printing and a reversed image if you'd like to use that for transferring the pattern. The design is sized for a 10" embroidery hoop. I stitched the sample on white tone on tone Blossom fabric and the hoop is trimmed with ball pom pom trim for an extra bit of color!

Please let me know if you have any questions or need any help! You can email me at [bev@flamingotoes.com](mailto:bev@flamingotoes.com). I'd love to see any photos of the pattern that you stitch up too! You can follow me on Facebook at <https://facebook.com/flamingotoes> or Instagram at <https://instagram.com/flamingotoes>.

Thanks for stitching!

Bev
